The orthography of the Worcester Dictionary is that used by most, if not all, authors of distinction in this country and England, and conforms to the general usage of ordinary writers and speakers.

Whatever prejudices may have existed previously, a careful study of this volume will invariably be followed by a warm appreciation of its great merits, and a desire to add it to the well selected library, be it large or small, It is a library in itself, and will remain an imperialisable record of the learning of its compiler.

Ayer's Sarsanarilla Che Ohio Statesman

A compound remedy, designed to be the most effectual Allerative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of stil greater alterative power as to afford an effec-tive antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

SCROPULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF

This compound will be ound a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-THE BLOOD. ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no asting health. Sooner or later something must go wrong, and the great machinery o

life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla.

or any thing else. During late years the public have been mis led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for the load of the lo believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

The letters of its Virginia correspondents contain much interesting matter. On the evening of the lat of June, Mr Davis and his wife were sacrenaded of the Spottswood House, Richmond. Mr. Davis responded as follows:

will not be content with flint and steel, or even a gun along as a sample, and no no better, be is a renegade. If he can do no better, be is a renegade. If he can do no better, go to a blacksmith, take a gun along as a sample, and get him to make you one like it. Get a spear—a lance. Take a lesson from John Brown. Manufacture your blades from old iron, even though it be the tires of your cart wheels. Get a bit of carriage spring, and grind and burnish it in the shape of a Bowie knife, and put to it any sort of handle, so that it be strong—ash, hickory, oak. But, if possible, get a double barreled gun and a dezen rounds of buckshot, and go upon the field with these. If the enemy's guns reach further than yours, reduce the distance; meet them, foot to foot, eye to eye, body to body, and when you strike, strike home. Your true blooded Yankee will nower stand still in the presence of cold street, strike home. Your true blooded Yankee will nower stand still in the presence of cold street.
